

Erasmus Experience

I am Paula Gjoshi and I am a second-year student in the Master of Science Degree in Physiotherapy at the University of Health and Medical Sciences of Tirana in Albania (FSHMT).

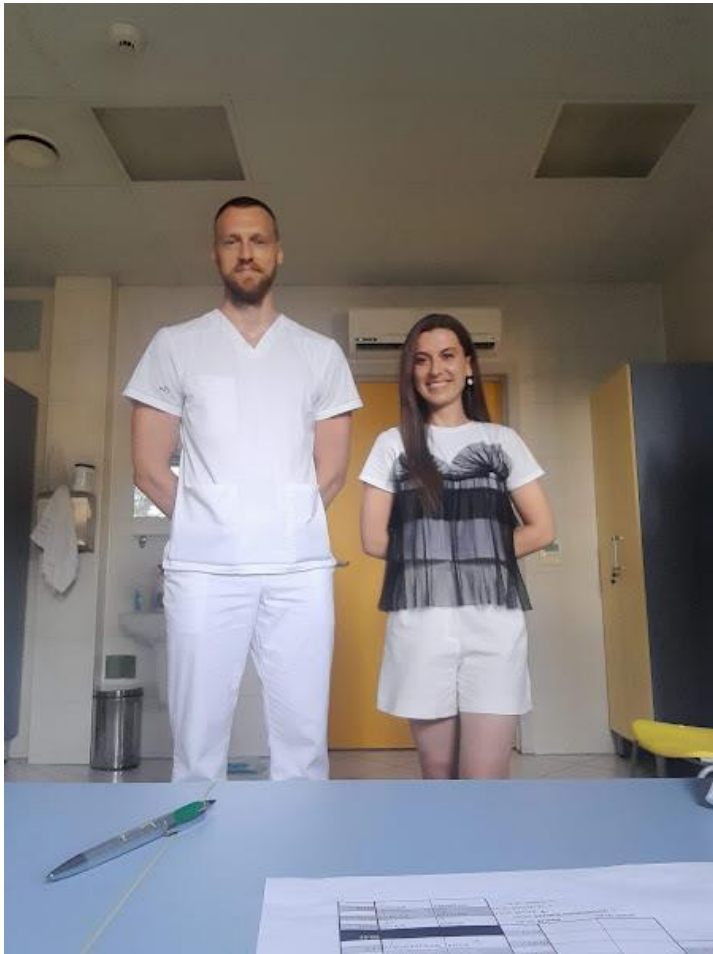

I was chosen to be part of the Erasmus+ programme in the College of Applied Sciences 'Lavoslav Ružička' in Vukovar, Croatia and I was given the opportunity to do a clinical traineeship at the National memorial hospital of Vukovar. The traineeship significantly contributed to me gaining more confidence, security and experience in my professional development.

During this time, I was able to distinguish commonalities and dissimilarities among the approaches and methods utilized in Albania and Croatia. I am grateful for this unique possibility and experience, which positively influenced my career path.

I am grateful to the staff who welcomed us. A special thanks goes to my colleague, Igor Franic, who helped me through this experience with perfect ethics and professionalism. A perfect partner to work with.

Hvala!
