

Incoming student Erasmus+ experience Traineeship mobility at VEVU Project 2020-I-HR0-KA107- 060536

ERASMUS+ VUKOVAR

Erasmus+ was a great opportunity, especially in traineeship setting, as it helped me with the enhancement of my working skills. I got to experience a new work place with different procedures and way of treatment from my home town. The staff, despite the language barrier, were very patient and welcoming. On a personal note it was nice living in Vukovar, for the cultural similarities and differences made the experience even more cherished. I am very grateful to have been part of it as it was an amazing experience, which has contributed to the enhancement of my professional and personal growth.
