

The Aim of the Conference

The main aim of the WAICHL-2025 conference is presentation of results of scientific research and exchange of views on innovative solutions in senior health care and social and technological innovations in the silver economy. The objective of the conference is also activation and integration of the academic community, local and regional authorities, public institutions, and representatives of economic practice and business world for promoting the healthy and socially responsible lifestyle in an ageing society.

Sessions

1. Economic, social, and health challenges in an ageing society.
2. Social services and innovations in the silver economy.
3. Technological innovations in the senior economy.
4. Innovative and pro-ecological solutions in households' energy economy.
5. The market of health services in an ageing society.
6. Innovations in medical services for seniors.
7. Artificial intelligence and care for the elderly: ethical and legal challenges.
8. Innovations in food and nutrition.
9. Health and active ageing.
10. Innovations and quality of life of people with special needs.
11. Demographic, social, and economic changes in Poland.

The suggested topics do not cover all the issues regarding innovations in the silver economy. The Organizers are open to any topics which can enrich discussion on main issues in ageing society.
