Powiślańska Academy of Applied Sciences

We are pleased to inform you that Powiślańska Academy of Applied Sciences welcomes applications for Erasmus+ traineeships throughout the entire calendar year, both during the academic semesters and the summer break.

Our main areas of traineeship opportunities include:

- Computer Science, IT and related fields
- International Relations and international cooperation
- Marketing, Social Media and Communication
- Student Services and Student Support
- Administration and Organisational Support

Students from other academic backgrounds are also welcome to enquire about potential placements. However, we kindly ask them to contact our International Office (contact listed below) in advance to confirm whether a suitable traineeship can be arranged.

Important information regarding medical and healthcare traineeships: Due to the limited availability of placements and the significant organisational challenges associated with providing practical training for our full-time students, we regret to inform you that this year PAAS is unable to accept Erasmus+ traineeship applications in Nursing and other medical or healthcare-related fields. Please note that this restriction applies to all applicants, regardless of their individual qualifications or experience, and we are unable to make exceptions during the current academic year.

Application procedure

Students who have already been approved for Erasmus+ traineeship mobility by their home institutions may apply directly through our application form:

Application Form: Application Form - Mobility for Traineeship

For any questions, placement enquiries or additional information, please contact us at **projects@powislanska.edu.pl**.

We would be grateful if you could share this information with your students and relevant departments.

We look forward to welcoming new Erasmus+ trainees to our institution and wish all interested students the best of luck with their applications.
